How Green Was Our Valley?

The Texas Rural Roads Association has just concluded a meeting in Austin. What of it? Well, for one thing it appears that something must be done to protect the people from the Legislature.

In brief the object of the Association is to fight for legislation that will transfer some of the benefits of government and taxation to the rightful owners. Such a spectacle was the inevitable result of subversive government — years of legislative control by the big lobby at Austin. The situation now warrants a political revolution but it is doubtful if we can get it.

Legislative methods at Austin have developed into what amounts to a subsidy of the politically important sections of the state. Cities are actually being built or bolstered by tax money. Vast sections of Texas have long been neglected because they are no longer important from a population standpoint. These same areas are more important than the populated centers because they are productive and cannot be replaced or duplicated. It does not make sense at all.

Texas through such a policy has deserted in large measure its heritage of sky and soil. Farm to market roads are the only things that can now be done to restore the state's great farming areas. If the present legislative policy continues rural Texas will become a no man's land.

So the Texas Rural Roads Association is going to hire a lobby. You will hear the cry that lobbying is immoral. Well, it depends somewhat on the type of lobby you talk about. Imagine anyone from the good roads areas crying out against the oil or the cement or the contractors lobby.

A Constitutional Amendment in 1945 which had the effect of freezing highway funds virtually sealed off all sources of revenue for the smaller counties and very little if any of the 4c gasoline tax can now be had for rural roads. The nigger in the woodpile was that the act provides that any distribution of the tax must be made on a population basis. This was the biggest steal of modern times and it is plain to see that the big counties will get all the money.

Members of the legislature who voted for this amendment should now be asked the question "How did you hope to serve your home counties?" More power to the Texas Rural Roads Association and sanctions for the nit-wit legislator.

CITY COUNCIL PLAN IS ANNOUNCED HERE

Following the familiar pattern the City Council has been organized for the coming year.

Some changes were made in committee assignments but all committees have been staffed in the familiar pattern which has been the municipal vogue here.

DEMOCRATS TO NAME DELEGATES SATURDAY

Political harmony among Milam County Democrats was forecast here Tuesday on the eve of Precinct conventions to be held on Saturday.

The County Convention will be held on Tuesday, May 4 where delegates to the State convention will be named.

A few precinct delegations have already been named and no resolutions have been passed. It was believed that the county convention would undertake a number of resolutions.

Lack of enthusiasm for President Truman as the nominee of the party in June may result in an uninstructed delegation from the county convention. Many Democrats are lukewarm over the Civil Rights stand of the President.

A smattering of old time Democrats who believe the Party has paced the Socialistic trend in recent years feel that party enthusiasm is on the wane. Change has brought new policies and these things may not have been recognized clearly in the light of developments. Compromise was certain to be the site on which decisions are made in the state convention.

DOWNPOUR REVIVING VAST FARM AREAS

The heavy downpour Saturday night and early Sunday morning was reviving vast farm areas in Milam county and in central Texas.

Cameron had around an in of rain and some sections nearby as much as two inches.

In the Ben Arnold area the rainfall was believed to be as much as 2 inches. North of Rosebud the rain reached almost cloudburst proportions in some sections. Creeks and smaller streams were flushed with freshly fallen water. Elm Creek was almost out of banks.

The rain was pretty general all over this area. Stock water has been replenished in some places where the situation had become serious.

Slightly cooler weather is due here by Tuesday.

AIRPORT HAS ANOTHER MANAGER THIS WEEK

Frequent changes in management of the Municipal Airport in Cameron had brought a new face and name into the picture of local air history.

M. H. Gossett who hails from Hobbs, New Mexico and who is a native of Wills Point, Texas, is the new head of the airport here.

John Leslie, it was said here had resigned because of the serious illness of his parents in Fort Worth. Mr. Leslie staged the successful air show here recently and had been at the field only a very few weeks.

Mr. Gossett has been associated with the air field at Hobbs. He has taken up his duties here. Mrs. Gossett and their small daughter will arrive in Cameron soon.

DAN TYSON ANNOUNCES FOR COUNTY JUDGE

Dan Tyson, County Judge of Milam County, is a candidate for the nomination for his first elective term, subject to the Democratic Primary election to be held on Saturday, July 24.

Judge Tyson was appointed to the office to succeed the late Judge Jeff T. Kemp and is serving an unexpired term, being a candidate for the first time. His announcement will be received with favor by the people of the county whom he has served with distinction and efficiency since taking up these duties.

Judge Tyson is a native of Milam county, born at Maysfield. He is married and has one daughter. His only son, the late Lieutenant Sam Tyson, was killed in action on a bombing mission over France during World War II. Lieut. Tyson was a Bombardier aboard a B-24 Liberator.

Judge Tyson did not come to the office of County Judge without impressive background of public service. He had served for years in the city government of Cameron, first as Assessor and Collector, then City Auditor. He served also as Secretary of the Cameron School Board and at the time he was appointed by the Commissioner Court he was serving as Secretary and Treasurer of the City of Cameron.

Judge Tyson's civic responsibilities have been large and varied. He was appointed in 1942 by Gerald C. Mann, then Attorney General of Texas, as Chairman for the Navy Relief Drive in Milam county. The quota was oversubscribed, a tribute to his leadership for he has always (turn to page ten)

Massey Case Re-Set For May 19 Before Court of Appeals

County Attorney Bill Morrison has received notice from the Court of Criminal Appeals in Austin that the Ola Dee Massey case has been re-set for hearing and argument on May 19.

The case was originally set for April 28. Dr. Massey, Waco Dentist, is under a 5 year sentence for kidnapping for the purpose of extortion in connection with the abduction of her late aunt, Mrs. R. H. Johnson of Cameron who died early this year.

Dr. Massey was tried in District Court here and convicted. The charges grew out of the forcible detention of Mrs. Johnson in a Waco hospital after she had been taken from St. Edwards Hospital here on the assumption she was being returned to her home.

Shortly after Mrs. Johnson was taken to Waco home here was entered and valuables taken, most of them recovered at the Lake Waco home of Dr. Massey. A diamond brooch valued at \$2500 is still missing.

Mr. Morrison will represent the state in the argument for the case and Camp & Camp will represent the defendant.

C. S. Raney Runs For Commissioner; Error In Printing

An error in the political announcement column of the Herald created an impression in Commissioner Precinct 1 in Milam county, that C. S. Raney may have announced for Assessor and Collector of Taxes.

The error occurred when the name of Mr. Raney got out of position and appeared under the name of Valter White. The error was made on two successive weeks and Mr. Raney and his friends were justified in making a complaint.

The error has been corrected and Mr. Raney is listed correctly now as a candidate for a second term as Commissioner of Precinct 1.

Mrs. Eula Harwell and Mr. and Mrs. D. V. Neal of Cameron visited in the home of Mr. and Mrs. Jessie Butery in Louisiana a few days the past week.

TO FIGHT LEGISLATURE FOR TEXAS ROAD FUNDS

AUSTIN, April 24—The Texas Rural Roads Association today adopted a program to push for passage of farm-to-market road legislation in the 51st Legislature.

The association voted to hire an executive secretary and lobbyist and to work for a \$100,000 fund to wage a campaign before the Legislature which convenes next January.

The organization, made up of groups interested in rural roads, adopted a constitution and by-laws and set May 22 for a meeting in Austin to elect a board of directors.

Rural advocates were told by Robert W. Calvert of Hillsboro, chairman of the State Democratic executive committee, that they should unite to gain an adequate road program. He pointed to the program advanced by teachers and passed by the 50th Legislature in 1947.

"There was just as much sentiment for a farm-to-market road program, but everybody went running off in different directions. If that happens again," Calvert said, "you're not going to have a program."

The association voted to establish directors in each of the 31 Senatorial districts in the State. 11 directors at large, and one director from each member organization.

The constitution adopted by the association sets up a 10-year road program in which support will be placed behind adequate roads on school bus routes within two years, RFD delivery routes inside of four years, milk routes within six years, and all other needed rural roads by 10 years.

\$2 Fines Don't Pay Well If Prisoners Get Their Meals

A \$2 fine for getting drunk is bad economy for the city.

Here's an example: Sunday corporation court heard two cases of men charged with drunkenness. The fine was the usual \$2. The city got a total of \$4 out of the cases. If the

men arrested remain in jail until Monday they have to be fed. It costs \$3 a day to feed a prisoner and the city would in that case received \$4 and pay out \$6 a net loss of \$2.

Drunk cases as well as others must be heard on Sunday to prevent financial losses to the city or fines must be hiked if cases are tried on Monday.

Printing is a home industry.

PROPERTY RIGHTS ARE UPHELD IN KANSAS CITY

When workers seize property and prevent its operation a serious conflict between property rights under the constitution and usurpation arises.

In a situation of this kind might well be planted the seeds of civil war.

Policemen in Kansas City resorted to violence to preserve the open shop principle by driving out union meat packers who had seized the Cudahy Packing Company's plant there and defied the owners or the authorities to restore it.

After several days in which patience was stretched to the breaking point police clubs became a tell-

ing argument. Strikers with bloody head jumped through windows to escape and within minutes the plant was cleared.

All cafes and resorts within several blocks of the plant were also cleared. The strikers were told to go back to work or get off the streets.

For once political expediency was forgotten. As a result a sacred principle of the American Constitution has been preserved—the right of the individual to own and to operate his own property.

In addition the Police in Kansas City wrecked a CIO hall and for the time all was orderly in the packing center. Authority has been vindicated and the Union again has lost trying to defeat the rights of others.

From where I sit ... by Joe Marsh

Sam's Hens Wear Spectacles!

Yes, it's a fact! Sam's brood of two dozen hens are wearing spectacles—which he bought from a mail-order house in Capitol City.

Sam says it works (and big poultry raisers say so, too). The hens see each other through soft colored glasses, and instead of fighting and picking at each other, they go around placidly, gain weight, and lay more eggs.

Makes me almost wish we could have rose-colored glasses for human beings, too. So that instead of quarreling and criticizing, like we

do so much of the time, we'd live and let live in contentment.

From where I sit, the human race wastes a powerful lot of time in wrangling over minor issues... whether a man should drink beer or cider... whether a woman should wear slacks or skirts... instead of seeing each other through "spectacles" of tolerance that enable us to live-and-let-live like Sam's brood of chickens.

JEWS BUCKLE ON THEIR ARMOR FOR CONFLICT

The Feast of the Passover, celebrated in Hebrew history as the time of deliverance of the Jews under Moses from the grip of Pharaoh in Egypt, was celebrated yesterday with the capture of Haifa from the Arabs.

Bitter fighting was in progress but the Arab garrison was wiped out and British boats had gone into the harbor to rescue and to evacuate all Arabs. Women and children were shot down in the first fury of the Jewish attack.

David Ben-Gurion, Premier designate of the Jewish State in a special Passover statement called upon the Jews to "mobilize all hidden resources of strength, will power, devotion and ability."

Ben-Gurion is Russian born. The Jews are angry over the back up of President Truman on the division of Palestine. This coupled with the traditional racial and other clashes between the Arabs and the Jews may have touched off a full scale war.

Beneath the surface plans were going forward for Allied intervention in the Holy Lands. Well placed authorities said that United States Troops will soon be fighting in the Near East.

In a show down the Russians would back the Jews in Palestine. The British are already the most hated of the middle size powers in the Holy Lands and the Jews have no place to go except to Russia.

WHAT'S CHEAPER THAN DIRT?

Pure running water from your city water supply is literally cheaper than dirt.

A ton of water delivered to your home costs less than 13c on the local average year-round rate. A ton of earth dumped on your lawn would cost many times as much for hauling alone.

This low cost of water is all the more remarkable when you consider it includes collection, pumping, storage, purification and delivery to your home in any quantity at any time of day or night.

Nothing else you buy means more to your health and comfort than your water service. Yet it remains today, as always, one of the smallest items in the average household budget.

Assault Appears To Be Happy At King Ranch Home In Texas

KINGSVILLE, April 24—Assault, the horse that carried the Running W of Texas' King ranch, to victory on the nation's leading tracks before being retired appears to be happy to be back home for the first time since April 1945.

In those five years, Assault, with a crippled foot, raced 33 times, won 16 firsts, five seconds, and five thirds to grab third position among all-time money-winners. Assault's owner, Robert J. Kleberg, retired him after he burst an osslet in the Widener classic early this year. Following a rest in Kentucky, he was returned last week to the King ranch, his birthplace.

"He's doing all right and seems to feel right at home," says Dr. J. K. Northway, King ranch veterinarian, who helped cure Assault's right forefoot after the colt stepped on a thorn and nearly ended his career right there, on the Santa Gertrudis division of the King ranch.

After Assault had had a thorough examination here—the Texas terror is still a bit touchy following his trip—a general build-up and conditioning program is in store. No one will make any predictions, but there is still the possibility—though faint—that Assault will race again.

MRS. VICTORIA GREEN DIED IN CITY SUNDAY

Mrs. Victoria H. Green, 91, died at the home of Mrs. John Watterson in Cameron at 12:30 p. m. Sunday, April 25.

Surviving are two sons T. J. Green of Hearne and J. C. Green of Porter City, Texas. Eleven grand children also survive.

John Mraz, Jr., of Cameron, is among the many who are to read The Herald again this year. He has been a reader for some time.

TEN YEAR VETERANS OF FARM WORK HONORED

Certificates and lapel-emblems were awarded April 6, by the Farmers Home Administration to all employees who have been in the service of the U. S. Department of Agriculture ten years or more.

Included among those receiving the awards was Miss Leona K. Blakley, County Office Clerk, in the Cameron FHA Office. At the time the presentation was made Miss Blakley had served over 12 years.

The presentation of the certificates and service emblems was made by B. Miller, State Field Representative, of the Farmers Home Administration at Burnet, Texas. In congratulating the award-winners for their long and loyal service Mr. Miller said, "It is fitting that the Department of Agriculture should take recognition of good service rendered to the public by its employees who carry on their duties faithfully year after year. Through experience you have undoubtedly acquired knowledge and skill which make you valuable as an employee of your government. I am sure you desire this recognition and honor."

Mr. Miller said that the ceremony held April 6 would be duplicated each year in the future as a part of the Department of Agriculture policy of recognizing meritorious accomplishments and longevity of service.

MEDIATION BOARD TO SEEK SETTLEMENT

The projected railroad strike was held in abeyance to-day as the United States mediation board stepped in to ask further delay pending settlement.

Rail workers to the number of 150,000 were all set to walk out on a fixed date to be set early Wednesday. If the strike is called it will effectively tie up rail traffic throughout the nation.

The country recalls the 2 day strike months back when the President moved to end the walkout. Railway men are reasonably disposed and have been ready at all times to adjust their differences with employers. The union rejected the 15 cents an hour proposed increase in wages recommended by the government.

Developments were expected Thursday.

FORMER LOCAL MAN TO RUN FOR GOVERNOR

Roger Q. Evans of Denison said he will run for the governorship of Texas "if there is evidence of sufficient dissatisfaction with the present administration."

Evans is a former resident of Cameron and friends here will be watching developments.

Evans is a member of the Texas House of Representatives and is State commander of the Veterans of Foreign Wars.

He indicated his belief that there is considerable dissatisfaction with Governor Beauford H. Jester's administration.

"There are plenty of voters who didn't like his stand against a State bonus for veterans," the 55-year-old Legislator told The Associated Press in an interview following a bonus meeting of college veterans.

What other evidences of dissatisfaction with the present administration did he anticipate finding?

"One strong consideration will be the outcome of the court hearing on the college building constitutional amendment next Friday," Evans replied. "If the court validates the election in which the amendment was approved, then I will go to the people with it."

The college building amendment, adopted by a narrow margin in a special election last August, provides means of financing construction at State-supported colleges and universities. A 5-cent tax would finance buildings for 14 State colleges for 30 years.

Evans has been a bitter opponent of the plan.

Evans declared himself not satisfied with the State Agriculture Department setup because the department does not receive adequate funds. He also proposed strengthening the State's soil conservation program.

LIBERAL CREDIT PLAN FOR NATION'S POOR

Although the passage of the new liberal credit plan for the nation's poor on housing, may result in prohibitive material prices, the government was going ahead Friday with its encouragement.

The senate today passed and sent to the house the multi-billion-dollar Taft-Ellender-Wagner housing bill. It is designed to encourage the building of 15,000,000 new homes by 1958.

Senate passage of the hotly disputed measure by voice vote came quietly in sharp contrast to the wrangling over the bill during a week of debate.

Only about a dozen senators were on the floor for the final ballot.

But the earlier scrap is certain to be revived in the house. The house banking committee stuffed into a pigeonhole a similar bill passed by the senate in 1946. And there is plenty of opposition in the committee to some parts of the new bill.

Rep. Wolcott (R-Mich.), chairman of the house banking group, told a reporter the committee will hold "full hearings," starting probably the first week in May. He predicted congress will pass "some sort of a housing bill," but declined to comment on the senate measure.

Just before the senate voted it adopted two amendments.

One sponsored by Senators Young (R-ND) and Russell (D-Ga.), added a \$268,500,000 farm housing program to the bill. This replaced a provision for only a study of the rural housing situation.

The other amendment, offered by Senator McCarty (R-Wis.), authorizes the government to pay half of the cost of homes for severely paralyzed veterans.

Yoemen Nosed Out In Regional Meet

T. J. O'Neil paced Yoe high school tracksters in the regional meet at San Marcos by setting a new 100-yard dash record in the preliminaries, but he could no better than second place when the chips were down.

His record-shattering time was 10.3. O'Neil also came in second in the 220-yard dash.

Laurence Michalka, star Cameron pole vaulter, also grabbed a second place, finally going out at the 11-foot marker.

Both these boys qualified for the state meet.

Other pacers in the meet were Thomas Michalka, third in the half-mile; Dick Stedham, fourth in the 200-yard low hurdles; sprint relay team (O'Neill, Thomas, Michalka and Benny McDonald), third.

Belton's touted mile relay team came in second and Tiger milers snatched both first and second places.

Ferrell Kirk made a business trip to Dallas Thursday.

Central Freight Lines Gets Assignment To Form Truck Battalion

Central Freight Lines Inc. has entered into an agreement with the Army to sponsor a transportation truck battalion for the Army, according to an announcement by W. W. Callan, President. This battalion will be organized along the lines of the National Guard from reserve personnel who were in the Army during World War II. When the organization has been entirely completed and training standards have been accomplished, the battalion will be subject to being called during a National emergency on the same basis the National Guard is subject to call.

Lt. Col. George P. Kosub, Houston Branch Manager for Central Freight Lines Inc., has been assigned as Commanding Officer for this truck battalion. Callan advised, to be known as the 826th Transportation Truck Battalion, the unit will be sponsored by Central.

Officers and men will be recruited from more than 250 World War II veterans now employed by Central.

All necessary equipment for training the personnel will be furnished at a later date by the Army. This battalion will only enter the organization stage at this time.

Mrs. Brown is the former Ruth Kemp, and is looking forward to having her mother as she and husband have purchased a new home and have moved into it.

Steve J. Mueck, 19, son of Mrs. Frances Mueck, Cameron, enlisted in the U. S. Air Force to continue his education and has expressed a desire to become a radar mechanic during his military service. He enlisted at Austin for three years.

Mr. and Mrs. Frank Barrett and Miss Susie Dell Matthews spent the week end in Freeport with Mr. and Mrs. Flake Brooks and family. They were shown through the Dow Chemical Plant by Sgt. J. L. Hays who is a close friend to the family.

BELDEN POLL SHOWS PEOPLE FAVOR BONUS

AUSTIN, April 17—A majority of the people of Texas believe the State should pay a bonus to its veterans of World War II. But there is widespread indecision as to the amount such a bonus should be. And only a majority are willing to say now that they would pay more taxes to raise the money.

These are the results of a statewide survey by The Texas Poll. Discussion of a State bonus recently broke out in the news when Governor Beauford Jester casually commented at a press conference that he thought a veterans bonus would be "un-Texan." Since then, various veterans organizations have publicly

criticized the Governor for his remark.

To find out what people think about a bonus. The Texas Poll put this question to a representative cross-section of the adult population:

"Do you think the state of Texas should give a bonus to veterans of World War II?" Here is how the vote came in: Fifty-nine per cent of the men said yes and 64 per cent of the women said yes. Thirty-two per cent of the men said no and 23 per cent of the women said no. Undecided were men 9 per cent and women 13 per cent. The percentage total of the poll was 61 per cent for the state bonus and 28 per cent against.

Yoemen Nip Killeen To Take Over Loop Lead In Baseball

The Cameron Yoemen took over undisputed leadership of District 26-A here this afternoon by wringing out a 3-1 win over Killeen in a skin-tight battle of pitchers.

Cameron's Bobby Wilkerson and Killeen's Daniels both pitched airtight ball, letting up only two hits apiece.

The Yoemen could hit Daniels, but found it hard to hit safely. But they latched onto their first run early, scoring it in the second on a missed infield fly.

Cameron notched another in the third, and built its lead up to 3-0 in the fourth as Left Fielder Fuchs came home on an infield roller after singling and stealing both second and third.

Killeen broke the scoring ice in the sixth, when Burns singled in a runner on third.

Tight infield play featured Cameron's team with First Baseman Gordon Gibson, Second Baseman Billy Hanes, Shortstop Muggo Garcia and Third Baseman Red Pfardrecher turning in errorless ball. Catcher Howard Beale also furnished a neat performance.

Cameron choked off a Killeen threat in the seventh when Gibson pulled a hidden-ball play and caught a Killeen player napping on first. After that, the visitors went down in apple pie order.

Wilkerson struck out six Kangaroo batters.

Shortstop Burns batted out both Killeen hits, both singles. Beale and Fuchs each pinged one-baggers for Cameron.

Both teams went into the tilt undefeated, and will meet again in the last district game of the season in Killeen May 13 or 14.

JEW SMASH ARABS IN SQUEEZE ON JAFFA

Jewish forces have fought their way into the ancient city of Jaffa, an old Arab city and reports Monday said they had penetrated one mile inside of the defenses of the city.

If Jaffa falls it will be the second major port to be taken by the Jews since Passover Day. They have taken Haifi, scene of an American air base during the war.

The status of the battle was in doubt last night, however—conflicting reports saying the underground Jewish drive had stalled upon meeting British armored forces or that it still was in progress.

Haganah, the Jewish militia, took no part in the assault and termed it unauthorized. An official Haganah statement, belittling the Irgun attack on the all-Arab city of 95,000 said the operation attracted more attention in parading and blocking traffic in Allenby Road than it did in the streets of Jaffa.

Some sources said British armor drove into the breach between Jewish and Arab troops and that the British told Haganah to demand that the Irgun army withdraw to the no man's land area between the two cities.

Irgun leaders, however, claimed the assault still was in progress early last night and that the Jews had captured the Manshieh quarter of Jaffa, which sticks out like a thumb into the no man's land.

The assault opened as new clamor arose from the Arab world for swift action to counter Jewish successes in the Holy Land.

CHANCES OF CONFLICT MORE CERTAIN DAILY

General Omar N. Bradley, chief of staff, has told the senate armed services committee that the prospect of war is stronger now than it was three months ago.

In secret testimony given before the committee last Wednesday, Bradley said:

"I think we would be neglecting our duty if we did not come up here and try to tell you that we are a little bit more afraid something will happen than we were three months ago when we were talking in terms of reserves."

Bradley also said "we are not so sure" that there is no war ahead right away.

Testimony given at the hearing last Wednesday was made public by the committee today, though it had been heavily scissored in spots.

But there was no doubt all the committee discussions had revolved around the idea that Russia might be our opponent if there is a next war.

Bradley was asked by Senator Gurney (R-S.D.), chairman of the committee if he was dropped his request for universal military training.

Bradley replied: "No, sir, because we must have a trained reserve unless we are going to be willing to fight a purely defensive war on this continent plus whatever air (forces) we can get over to England, maybe, or somebody else that is holding out for the time being."

Senator Russell (D-Ga.) said he concurred in the view of Senator Tydings (D-Md.) that if we get in a war (committee deletion of two words) in the next six or seven years it is going to be an accident. It may come and it is perfectly possible. There are many hot points of contact that we have over the globe."

The testimony of Secretary of Defense Forerthal was censored considerably by the committee, but in a discussion of getting existing B29 bombers flow in storage back into service, he was quoted as saying:

"For my responsibility, I regard every day as critical."

Fees Make Fines Look Heavy; Actually \$2 Is Often The Levy

There is considerable lack of information among the people on what constitutes a fine.

Often when a case is reported the total amount paid is listed as a fine. Far from it. Costs of court, meaning fees to the officers, constitute in most cases the major portion an offender pays.

In some cases where the minimum fine is \$25 the costs make the total in the neighborhood of \$50. A fine is that portion of the levy on the offender that goes to the treasury of the city or the county. Fees of course far outstrip the fines.

There is nothing new about this situation. It has been the law and largely the practice to impose minimum fines. An example of what may occur is the customary drunk fine in Cameron. Offenders usually fined \$2 and when the costs are added the total is \$15. When an offender is reported to have paid a fine of \$15 for getting saturated to the gills the impression is apt to be that he has been justly punished. Actually he is fined only \$2 and the tax payers who maintain the establishment get only two bucks.

If a fine of \$25 or \$50 were assessed it can be seen that the jag would be more than just a fling of two bucks in the treasury for the privilege of getting drunk in a public place. It also might have a tendency to discourage the habitual over drinking man.

Garcia Pitches His Team to Victory In One Hit Classic Here

An impressive one-hit pitching exhibition by Muggo Garcia and a powerful hitting spree by the whole Cameron team gave the Yoemen a 10-0 triumph over the Taylor Ducks in a District 26-A baseball tilt here Thursday.

The lop-sided victory strengthened Cameron's bid for the loop crown, even though the top spot is in a tie between the Yoemen and the Killeen Kangaroos.

Garcia was touched for the lone hit in the fifth frame when Taylor Firstbaseman Wilson tapped out a single. He whiffed 10 batters, then made a three for four stand at the plate for his share of the Cameron win.

Nearly every man on the winning team clouted at least one bingle, but Pfardrescher with a triple and a pair of doubles in five attempts, Louis Absnader with three for four, and Garcia paced the attack.

been a man to inspire confidence and friendship. He served as Milam County Chairman for the War Bond drives No. 6, 7 and 8 and all quotas in each of the campaigns were greatly oversubscribed. Judge Tyson, due to heavy duties in the office of the county judge recently resigned as Chairman of the Milam County Savings Bond Committee a newly projected bond sale campaign of the United States Treasury Department.

When he became Judge he inaugurated certain policies that have been widely acclaimed by the people. One of these has to do with the criminal court over which he presides. He has uniformly imposed heavy fines on drunk drivers of automobiles and imposed jail sentences. Judge Tyson's friends point out that the stern attitude of the court to protect the lives of people on the roads and highways has resulted in a marked decrease in these offenses.

Judge Tyson possesses to a marked

degree the qualities that make for judicial wisdom and the people have on the court one who can mete out stern justice as may be necessary or temper his decisions with commendable qualities of mercy. In these characteristics are found the fine qualities of a good judge.

"I am profoundly grateful for the consideration and co-operation of my friends from every section of the county during my first 14 months as County Judge and will appreciate your support for a second term in the office," said Judge Tyson.

Owing to the fact that the County Judge does not have an assistant or a deputy it is of vital importance to attend to official business matters the people that he be available to not only for Milam county but for those who come from various sections of the country. This being the case it will be impossible for Judge Tyson to see all voters but he will see and talk with as many as possible.

ARSENIC SOLUTION IS DUMPED INTO SEWER

HOUSTON, April 21— The Brazoria County game warden to-night said at least 400 head of cattle have died from arsenic-polluted waters of a sluggish creek.

H. T. Mayne said dead cattle and wildlife are lining the banks of the Little Linville Creek, Brazoria County. He estimated dead cattle at between 400 and 500.

Earlier today V. V. Anderson, a Santa Fe Railroad official at Galveston, said 6,000 gallons of arsenical weed killing chemical had been dumped by mistake last Thursday into a sewage disposal system which empties into the Little Linville.

Mayne said horsemen are riding up and down the banks of the creek warning residents of the pollution. Little Linville flows into Caney Creek, a popular fishing stream. Caney Creek, a popular fishing Caney Creek empties into Matagorda Bay and the Intracoastal Canal. Anderson said warnings were sent to farmers in the area immediately after the mistake in dumping the chemical was discovered. He said a farmer near Sweeney yesterday reported 16 cows and two horses having died after drinking from Big Linville.

A number of wild animals also died after drinking from the creek, Anderson said.

Mrs. R. L. Lemons has returned from a trip to Nacogdoches where she attended the District officers meeting of the Methodist church there.

PRAISE AND CONDEM PRESIDENT TRUMAN

The state Democratic executive committee voted 35 to 14 today to go all the way in supporting every nominee of the party. It broke the Texas party organization squarely away from a southern revolt.

By a voice vote, it beat down an effort to delete a phrase commending President Truman for his "valiant fight to stem the tide of communism through projection of the European recovery program."

The committee also deplored "the efforts of the Truman administration to destroy home rule and civil liberties in the south through the imposition of so-called 'civil rights' legislation," and recommended that the Texas delegation to the national convention be uninstructed on candidates.

The party's executive committee thus stuck to the pattern indicated by Gov. Beauford H. Jester in his speech here last night making recommendations for party action.

The test vote came on a paragraph from a resolution urged by a sub-committee which read:

"We recommend that the presidential electors and delegates selected (at the May convention), be outstanding and loyal Democrats who will faithfully carry out the mandates of the party as voiced in convention assembled, and who will accord full support to every nominee of the party."

Chairman Morris Roberts of the sub-committee wanted to strike out the phrase: "And who will accord full support to every nominee of the party."

According to Sheriff Carl Black the Tomek home was entered and out of this grew burglary charges along with entry of the Akers property. Holloway has been released from jail and is under bond awaiting action of the grand jury. According to Sheriff Black the thefts occurred on Wednesday and Thursday of last week.

The stolen goods were sold to the Bell Salvage Company.

CAMERON AGAIN WILL BE HOST TO CHILDREN

Students from the Rogers school will be in Cameron Friday, arriving at 10 o'clock in the forenoon to spend the day here and to hold their picnic in Wilson-Ledbetter Park.

The municipal swimming pool will open on May 1 and students and their teachers visiting here for their school picnics may have this additional entertainment advantage.

The first of the host affairs occurred on Wednesday when Ben Arnold students spent the day in Cameron.

The students and teachers enjoyed a picture show at the Milam Theatre. At the court house they got an insight into the county government and how it operates.

At Cameron Machine Shop they saw machinery in operation and again at the Coca-Cola plant where each one enjoyed a free drink.

The tour ended at the Herald plant where the children saw the edition of the little daily run off the press. Each student and teacher was given a copy of the paper in which was printed their names together with an account of their picnic.

The host program is a part of the public relations role of the Chamber of Commerce this year.

Clarkson H D Club Gets Lesson On Etching of Trays

The Clarkson H. D. Club met Wednesday, April 21, at the school building for a called meeting.

The meeting was called to order by the president, Mrs. Tim Mitchell. Regular business was dispensed with in order to have more time for the demonstration which was in charge of Mrs. John Matyastik, and was on "etching aluminum trays."

During the meeting, small four inch circles of aluminum were stamped, painted and the edges crimped. After they are thoroughly dry acid will be poured on, then the actual etching will be done. This will take place at the next meeting.

The members were happy to have as guests the following: mesdames Clifton Williams, L. D. Hout, Cora

Anding, R. L. McCown, Ivan Cleek, Bill Adams, Dewey Pruitt, and W. W. Cox. At the close of the meeting Mrs. Matyastik served refreshments of punch and cookies.

Attorney Bill Morrison spoke at the Father-son annual banquet of the FFA which was held at Milano on Friday night.
